5 users and projects

"I love that TimeWhale doesn't try to do everything, it's concept and focus is on tracking time. The intuitive user interface allows me to track time fast and convenient."
Mike Saunders, USA

"At the end of the day, I need to know how much time I spent with my clients. With TimeWhale, I can track and manage my time with ease. It even helps me to save time."
Franz Perndl, Austria

Perfect for Teams – Adding a new staff member and projects takes not even a minute. Managing teams and projects without hassle.

Intuitive – You shouldn't have to learn using a software. TimeWhale guides you and your workflow, so you never feel lost. The user interface's focus is on time tracking and nothing else.

Visual Reporting – TimeWhale allows you to easily analyze and visualize your company's resources. Identifying the most consuming tasks, projects, and clients takes only a click.

Enter Time Your Way – TimeWhale provides multiple ways to enter time for your convenience. From TimeWhale's time entry box, to iGoogle or even Twitter.

Nothing to Install – TimeWhale is a web-based service which means you can access your TimeWhale account from any computer, anywhere, as long as there is internet access.

Safe and Secure – TimeWhale servers are monitored 24/7 by our professional IT team, and all data is backed up daily. With TimeWhale's encryption and password protection, there's no need to worry about security and privacy.

Time is money – TimeWhale helps you tracking your time and identify time-waster. Cutting down these time-waster, allows to concentrate on more productive tasks and saves you money.
